Since I have no access to a phone or a tablet to complete my messages I respectfully request that this letter be transmitted ASAP to the USMS. The rest of what I was told is as follows:

(How is it, BTW, that an atty (officer of the court), can discuss my case w/ anyone? Another lawyer, a judge, inmate etc when he is not my counsel??

He said he and FBI Justin Noble

and had become great friends and
he used Noble (now 1st time financial

 Waco is out, Bishop is where Tallond started

He then told Oso (and Ariel, so

and that they had explained to him

Charles's infamous comment - "There is

no presumption of innocence in your

inmates occurred here, Bishop, and @

how this did not affect my
Bond hearing, my atty's opinion/
worth for me, my trial, my conflict
hearing w/ Pitman, and my present
situation. Particulars were discussed
when OSU was sentenced a few weeks
ago what it would take/cost to hurt me.

Judge Robert Pitman,

I Am sorry, SIR, to have to involve you and/or your court in my affairs. I apologize vehemently, but I have NO choice and the situation is NOT of my doing.

You are well aware of the issues I have had in custody and what I have been through. Matters were brought to my attention that, unfortunately, require your involvement, AS per the USMS to Officer Machicek yesterday/today. They claim it is not their jurisdiction, but yours and your courts. They (the USMS) and Burrell City jail, placed me in solitary (Against my will) for my safety. The marshalls then decided it is AN "outside Agency" and/or court matter (Your, honor -) but

the damage is already done. The gossip, among guards and inmates has already begun. Instead of simply putting me back to where I was un-noticed, they wished for me to sign a blanket absolution of guilt for the jail, saying that I halted my investigation, took responsibility for my own safety, and if I got hurt it is NOT their fault. I refused. Machicek "coached" me to lie, saying "You can tell your inmates someone said you were going to kill yourself and we held you in psych, realized it was a lie, then let you out." I refused. When I refused to sign the statement, I was threatened and told I would remain in solitary indefinite and that no outside law enforcement (Burnet County detective/officer, would be contacted. That there would be an internal jail investigation or

Here is what happened -

Last week (7-9, 7-10, 7-11) I filed several communications w/ Lt Ambrose on the GTR system that I had been approached by several people at Rec Tuesday Am that a hit had been put out on me for Thursday Am by several Mexicans (all w/ strong drug and/or cartel ties) via Serrano / Jalisco members. This was told to me in the Am by Daniel Trevino, Casting Jeremy Watrick in an attempt to protect me, I presume. *I was told that an attorney for one of the inmates who had just "caught chican" was the source of the threats (I believed otherwise - having sent info about the rampant K2 drug issue in my dorm and having had conversations w/ A Flano

Castellano And several w/ Fernando Lopez, Leon
Cunant 7/26/24 - my sentencing date was changed
away from the same date) I had the same issue
@ WACO - people attacking me as a hypocrite
over my son's "alleged" issues in CA, then my
taking stances against drugs and/or "ratting"
people out. I don't care what others do,
just keep it away from me and don't fire
it on me. The assault on Waco, (remember
my conflict hearing? I expressed my issues
starting Xmas day w/ a Jose Mora, the three-
18 fistfights, and that I could not understand
How he knew who Eric Perardi was? I was
not lying. I now know how/where he got that
information. (This has been going on since my bond
hearing - before / during / After my trial)

 a day to my wife of 27 yrs and son.
 611 letters (here and Waco) nothing. Mr.
 Tallond also told Os and Ariel that
 he had convinced Agent Nobles

 and became "good friends") to put the
 fear of God into everyone around
 me (Jasson y'all - taking \$ from his brother
 in law who was mentally challenged and

placing it on me, etc) And even convincing my wife that she would be charged / with my son, cutting me off from my family.

All this came to a head Wednesday / Thursday this week when Jeremy Wainwright (who knew Oso and Art well (Serrano and Texas Syndicate) and had been locked up together @ Bastrop and here. Oso caught chain a week and change ago, and the others around him, namely Lopez, and other "connected" sorts had taken charge of unfinished business (me), Mr Tolland offered again @ Oso's sentencing hearing (since Oso was leaving, what did it matter?) In his defense Oso liked me and had said to Mr Tolland then ask

(9)
if the "reach extended beyond to my family." Oso, not wanting to alienate his lawyer before sentencing, told him he would get back to him.

Jeremy told me I was going to be pissed when he sat me down (check the camera), (I had heard from Ant/Anel others about lawyer gossip - Jose hated me from the start (check camera about confrontations) and Charlotte/I did not get along. The defense I was told was not the defense I was given. No evidence in my favor used, witness I requested treated poorly/dismissed, and 2 used I knew nothing about. Jeremy knew all about

this. The information had to come from someone(s).

Mr Tolland helped Eric Perardi and James Holloway steal/hide money by turning his FBI friend on me. He never EVER interviewed me, never gave any credibility whatsoever to me after, turned vision. He turned Holloway, a thief of millions. (if you hear nothing I say Please do not let him [or Hanf's tax fraud against me] stand. He stole much more than you know, sir.) I'm a victim, Jason into a victim, Everyone into a victim! No one (Snyder daughter worked for a judge / Fflugville PD,

(11)

ever confronted me, sued me, asked for
supposed \$1 back? why? Because I
didn't take any money. I digress

Mr Tolland openly discussed my case,
"my guilt", my family w/ lawyers (inc.
my own) inmates, and client/non clients.
He put my life in danger, not only
@ WACO but here. (The marshal
will not help me, nor will the jail,
He poisoned my bond hearing, via
reaching out to Judge Lane as he so say,
poisoned my counsel, and openly solicited
my death/injury in not one but 2
holders facilities, while I am under.
